

The Mission of Swift & Company

Swift & Company has become one of the large businesses of the world through continuing to meet the growing needs of a nation and a world.

Society has a right to ask how the increasing responsibilities and opportunities for usefulness which go with such growth are being used by the men who direct its affairs—and the men have the right to answer:

To promote the production of live stock and perishables and increase the food supply;

To reach more people with more and better meat;

To make a fair competitive profit, in order to reimburse the 25,000 shareholders for the use of their capital, and to provide for the future development of the business;

To reduce to a minimum the costs of preparing and distributing meat and to divide the benefits of efficiency with producer and consumer;

To live and let live, winning greater business only through greater usefulness, with injury to nothing but incompetency, inefficiency, and waste; to deal justly, fairly, and frankly with all mankind.

These are the purposes and motives of the men who direct the policies and practices of Swift & Company.

PINE BLUFF AGAINST AUTO CONFISCATION

PINE BLUFF, Ark., June 4. (Sp.)—At the regular meeting of the Pine Bluff Automobile and Accessory association, the association went on record in support of the national association's fight against the government's ruling for the confiscation of bootleggers' automobiles.

The association's action does not mean that it is in favor of helping the bootlegger but as many cars are sold with part cash and a lien retained for the balance so when the government confiscates the car the automobile manufacturer or agent loses through no fault of theirs.

Circuit Judge W. B. Sorrells recently ruled that the state could not confiscate a car used for bootlegging.
